

LET'S NEVER-EVER BREAK it APART

Baby...you will always remain in my heart...Let's never-ever break it apart!

Starting with our first date...you have been my rock-my soulmate!

When we first met...my heart skipped a beat...

you looked so sweet...I felt the passionate heat!

You will always remain in my heart...

Let's never-ever break it apart!

Love perceives from what the heart receives...

at the very start-you won over my heart...

energizing my soul...making my life whole!

You will always remain in my heart...

Let's never-ever break it apart!

You blow me away...each and every day...

sending electricity through my veins...

while energizing my brain...

causing my emotions to go completely insane!

You will always remain in my heart...

Let's never-ever break it apart!

You are my erotic desire...setting my heart on fire...

while revving my passionate desire!

From the very beginning-you sent my head spinning...

leaving my heart burning, churning, and yearning!

You will always remain in my heart...Let's never-ever break it apart-until death do us part!

or

Let's never-ever break it apart...You will always remain in my Heart-until death do us part!
