

Baby...you will always remain in my heart

Starting with our first date...

you have been my rock-my soulmate.

*You blew my mind...then stole my heart!

(or---*From the very start...you blew my mind and won my heart!)

Let's never-ever break it apart!

When we first met...

my heart skipped a beat...

you looked so sweet... I felt the passionate heat!

Let's never-ever break it apart!

Love perceives from what the heart receives...you walked into my life...

energized my soul...

and made my life whole...

Let's never-ever break it apart

You blow me away...each and every day...

sending electricity through my veins...

while energizing my brain...

causing me to go completely insane...

Let's never-ever break it apart!

You are my erotic desire...setting my heart on fire...

while revving my passionate desire!

From the very beginning-you sent my head spinning...

leaving my heart churning, yearning and burning!

Let's never-ever break it apart-until death do us part...

You will always remain in my Heart!
